

Match Day

At last the shield is ours again -- and what made it ours? Retrieving. That, and the combination of cooperation and speed in winning the Teddy Bears picnic. AND winning the Match conformation class., AND the child handler AND the retrieve AND the obstacle course. AND musical chairs. The Golden Retrievers were a force to be reckoned with but the best breed won!

It was a really a fun day and there are some very tired dogs going home. One of the outstanding things about the day was that there were so many people lending their dogs to young people to compete with, and the dogs went off with obliging good natured acceptance — Goldies and Labradors. We have chosen our breeds well.
