### DOGS

#### **Baby Puppy Dog**

1. Charlie Brown at Kahilani  
Gorgeous 5 ½ month chocolate baby. Fantastic coat, lovely topline. Very well angulated front and rear. Tail comes straight off his back. Correct eye colour! Very neat feet. Really liked him.
2. Bornefield Star Spangle Bana  
5 month old black baby. Good coat, good head and correct eye shape and colour. A little long at the moment and pins slightly when moves, but just a baby and all can improve.
3. Southerly Zebastian  
Black slightly built 5 month old baby. Lovely head, correct eye shape and colour, and good ear set. Neat feet. Needs to body up.

#### **Minor Puppy Dog**

1. Sarasota Never Say Never At Blackhills  
Very well made black baby of 7 ½ months. Gorgeous head with melting expression. Good topline, very well angulated. Very good bone, neat feet. Fantastic coat. I would like a bit more enthusiasm and today he was pulling up on his front right leg but overall preferred to second place movement.
2. Bradorla Counter Measure  
Very much liked this 7 month black boys profile. Lovely head, correct bite, well angulated. Neat feet and good neck. But unfortunately was down on his pasterns at the rear which gave him his second place. Can, I am sure, be improved with fast lead walking.

#### **Puppy Dog**

1. Roughfield Knock On Wood  
Very mature yellow 10 month old boy. Lovely head, very good pigment, correct bite. Level topline, good feet and very good angulation. Fantastic coat. Won this class on his very correct movement.
2. Croftsway Shaken Not Stirred  
This lovely 8 month old took my eye straight away. He just got a bit tired on his final movement. Fantastic pigmentation. Very good angulation front and rear. A very good future ahead with him, I am sure. A typical Labrador.
3. Blackhills Michelangelo  
What a lovely typical head on this lovely 7 ½ month old black. Can't fault him in any way. The two in front of him just more mature at this time. Lovely front and rear angulation, lovely neat feet. Needs a bit more covering on his tail. Liked him very much indeed.

#### **Novice Dog**

1. Croftsway Colonel Jackson  
Lovely black baby. Melting expression, correct bite, tremendous coat and tail. Lovely front and rear angulation, correct shoulder and neck placement, and neat feet. A promising future ahead, I am sure.

#### **Junior Dog**

1. Roughfield Miles To The Moon At Charing  
Very showy yellow boy. Fantastic movement, very good pigmentation, good eye set and ear set. Level topline. Unfortunately losing his coat, but never the less, a good strong dog.
2. Roughfield Better By Miles  
Very nice yellow dog indeed. Not overdone in any way. Good head, melting expression. Correct angulation front and rear. In good coat. Neat feet. Moved with real drive. A very typical Labrador.

3. Mistybrook Marksman  
Very good pigmentation, lovely ear set and used his ears well. Well angulated, neat feet. Movement was fantastic. He needs a little time to mature into his body.

### Intermediate Dog

1. Mistybrook Matthais  
Lovely black boy. Good head, melting expression. Very good front and neck angulation. Level topline – tail coming off back very well in profile, but can hold it a little high on the move. Well angulated in the rear, neat feet and moved very well indeed.
2. Eventide All Black  
Very nice black dog. Level topline, well angulated front and rear. Neat feet. A little long in the body. Unfortunately his head is a bit strong for me.

2. Sarasota Ahh Dudleys The Name  
Lovely yellow 9 ½ year old boy. Just loved him but he is carrying much too much weight. Everything about his is correct. Front and rear angulation, pigmentation, and still moves so well. Such a shame that the excess weight spoiled him..

### Open Dog

1. Roughfield The Flame Keeper  
Good head, correct bite, uses ears well. Level topline. Good coat although tail is a bit on the blink. Correct angulation front and rear. Moved very gently and correct. A good dog. **Dog CC.**
2. Jancerie Mellow Yellow  
Very correct yellow dog. Very balanced. Good neck and shoulder placement, good topline and tailset. Well angulated, especially at rear. Moved very well indeed. **Res Dog CC.**
