

Sunday 16th April at 9.45 am

31 Griggs Road, Whitford

OLD DOGS WALK

The Labrador Club walks are fun but some of the oldies can't manage the full distance, so this walk is for those Labs that are happier having a mooch around the paddocks with lots of good smells without having to keep up with the younger dogs. We are restricting the walk for Labradors aged 10 years +, or those that are compromised and can't do a full Labrador walk.

Paddocks are fenced and dogs can be let off lead. Most paddocks are relatively flat with a little up and down.

You are invited back to the house afterwards for coffee/tea whilst your dogs can remain off lead in a dog proof section. Bring a towel as there are some small ponds that can be muddy if the weather remains dry.

Directions: Griggs Road is off the main Whitford Highway (on your right about 7.5 km from Botany Town Centre). After you turn into Griggs Road travel down the new road through the trees at the turnaround – approximately .5km from the main highway. Please park on the road and walk through the pedestrian gate. Please keep your dogs on the lead until everyone has arrived.

RSVP – contact: Luana 0212995880 luanajc1972@gmail.com as courtesy would be appreciated
